State of Nevada
List of Reportable Diseases

Unless otherwise specified, all conditions must be reported during the regular business hours of the health authority on the first working day following the identification of the case or suspected case.

Nevada Reportable Diseases §

Amebiasis
Animal bite from a rabies-susceptible animal**
Anthrax*†
Any infection or disease related to an act of intentional transmission or biological terrorism*†
Arsenic: Exposures and Elevated Levels‡
Babesiosis
Botulism*†
Brucellosis**
Campylobacteriosis
Candida auris
Chancroid
Chikungunya virus disease
Chlamydia
Cholera**
Coccidioidomycosis
Coronavirus disease 2019 (COVID-19)
Cryptosporidiosis
Cyclosporiasis
Dengue
Diphtheria**†
Drowning‡
Ehrlichiosis/anaplasmosis
Encephalitis
Enterobacteriaceae, Carbapenem-resistant (CRE), including *Enterobacter* spp., *Escherichia coli* and *Klebsiella* spp.
Exposures of Large Groups of People‡
Extraordinary occurrence of illness*†
Giardiasis
Gonorrhea
Granuloma inguinale
Haemophilus influenzae (invasive, any type)**
Hansen's Disease (leprosy)
Hantavirus
Hemolytic-uremic syndrome (HUS)
Hepatitis A**
Hepatitis B, acute and chronic
Hepatitis C, perinatal, acute, and chronic
Hepatitis C, negative results¶
Hepatitis Delta
Hepatitis E**
Hepatitis, unspecified
Human Immunodeficiency virus infection (HIV)
HIV: Stage 3 (*formerly known as Acquired Immunodeficiency Syndrome [AIDS]*)
HIV: negative results¶
Influenza associated with a hospitalization
Influenza associated with a death**
Influenza of a pandemic risk strain*†
Influenza of a strain that is novel or untypable
Lead: Exposures and Elevated Levels‡
Lead: All blood lead level test results in a child under 18 years of age¶
Legionellosis
Leptospirosis
Listeriosis
Lyme Disease
Lymphogranuloma venereum
Malaria
Measles (rubeola)*† (single case concerning for possible outbreak)
Meningitis
Meningococcal Disease*†
Mercury: Exposures and Elevated Levels‡
Mpox (also known as monkeypox)
Mumps**
Outbreaks and Suspected Outbreaks*†
Outbreaks of Foodborne Disease*†
Pertussis**†
Plague*†
Poliovirus infection*†
Psittacosis
Q Fever
Rabies (human*† or animal**)
Relapsing Fever
Respiratory Syncytial Virus (RSV)
Rotavirus
Rubella (including congenital)**†
Saint Louis encephalitis virus (SLEV)
Salmonellosis
Severe Acute Respiratory Syndrome (SARS)*†
Severe Reaction to Immunization
Shiga toxin-producing *Escherichia coli* (STEC, e.g., *E. coli* O157:H7)
Shigellosis
Smallpox (variola)*†
Spotted Fever Rickettsioses
Staphylococcus aureus, vancomycin intermediate (VISA) and vancomycin resistant (VRSA) infection
Streptococcus pneumoniae (invasive)
Streptococcus, group A (invasive)‡
Syphilis (including congenital)
Tetanus
Toxic Shock Syndrome, streptococcal and other
Trichinosis
Tuberculosis**†
Tuberculosis, Latent Infection (LTBI)***
Tularemia*†
Typhoid Fever**
Varicella (chicken pox)
Vibriosis, Non-Cholera
Viral Hemorrhagic Fever*†
West Nile Virus
Yellow Fever
Yersiniosis
Zika virus disease

* Must be reported immediately
** Must be reported within 24 hours
*** Must be reported within 5 days
† Must be reported when suspect
‡ Reportable in Clark County only
¶ Reporting of negative test results should occur through Electronic Laboratory Reporting (ELR). If ELR is not available, the CMR form on page 3 of this document can be used.
§ Any condition identified by the CDC as nationally notifiable is also notifiable in Nevada per NAC 441A

State of Nevada
Confidential Morbidity Report Form Instructions

Disease Reporting

The Nevada Administrative Code (NAC) Chapter 441A requires reports of specified diseases, food borne illness outbreaks and extraordinary occurrences of illness be made to the local Health Authority. The purpose of disease reporting is to recognize trends in diseases of public health importance and to intervene in outbreaks or epidemic situations. Physicians, veterinarians, dentists, chiropractors, registered nurses, directors of medical facilities, medical laboratories, blood banks, school authorities, college administrators, directors of childcare facilities, nursing homes, and correctional institutions are required to report. Failure to report is a misdemeanor and may be subject to an administrative fine of $1,000 for each violation.

HIPAA and Public Health Reporting

HIPAA laws were developed so as not to interfere with the ability of local public health authorities to collect information. According to 45 CFR 160.204(b): "Nothing in this part shall be constructed to invalidate or limit the authority, power, or procedures established under any law providing for the reporting of disease or injury, child abuse, birth, or death, public health surveillance, or public health investigation or intervention."

Instructions for Completing the Morbidity Report Form

Source Information

Provider Name/Phone Number
The physician primarily responsible for the care of this patient

Person Reporting/Phone/Fax
Provide if different than attending physician

Facility/Organization
List the locations for facilities with multiple locations.

Report Date
The date that this report is submitted

Patient Demographic Data
Sufficient information must be provided to allow the patient to be contacted. If insufficient information is provided, you will be contacted to provide that information. Attaching a patient face sheet to this report is an acceptable method of providing the patient demographic information.

Address/County/City/State/Zip
The home address of the patient, including the county

Date of Birth / Age
The patient's date of birth or age if birthdate is unknown.

Parent or Guardian Name
For patients under the age of 18, the name of the person(s) responsible for the patient

Phone
The home phone of the patient

Occupation / Employer / School
The occupation or employer of the patient, or the name of the school attended for students

Social Security Number
This information greatly assists in the investigation of cases, allowing easier access to laboratory and medical records.

Medical Record Number
A patient identifier unique to the facility or office

Gender / Sex Assigned at Birth
The current gender of the patient and the sex assigned at birth

Pregnant / Pregnancy EDC
The pregnancy status of the patient and their estimated date of confinement (projected delivery date)

Marital Status
The marital status of the patient

Race / Ethnicity
Race and ethnicity categories have been chosen to match those used by the Centers for Disease Control and Prevention.

Primary Language Spoken
Providing this information makes it easier to contact non-English-speaking patients and arrange for translators

Birth Country and Arrival Date
If the patient was not born in the United States, provide the patient's country of origin and date of arrival in the US.

Incarcerated
The incarceration status of the patient. If the patient is currently incarcerated, list the facility in the comments section

Morbidity Data

Disease or Condition Name
This form should be used for all legally reportable diseases in the state of Nevada

Onset Date
The date of the first symptom experienced by the patient

Diagnosis Date
The date that this disease was diagnosed. For reports of suspect illness, enter the date the illness was suspected.

Date Admitted/Discharged
For any patients admitted to a hospital, the date of admission and discharge (if the patient has been discharged)

Deceased / Date of Death
If the patient has died, list the date of death. If known, list the cause of death under comments.

Symptoms
All relevant symptoms

Laboratory Testing
If laboratory testing has been ordered, please attach the laboratory results to this form. If relevant tests are pending, list them in the comments section, as well as the name of the laboratory performing the testing

Treatment
Treatment information is necessary for the reporting of sexually transmitted diseases, and helpful in the investigation of other illnesses. If this field is left blank, you will be contacted to provide this information

Comments
Provide any additional information that may be useful in the investigation or to explain answers given elsewhere on this form.
